Usage reconciliation

Metric	Units
Total October API usage	3,500,000
Enterprise plan included usage	2,000,000
Billable overage	1,500,000

Usage source: Northstar production metering. Sandbox and failed requests are excluded. Units are rounded only for visual display; invoice calculations use exact counts.

October activity by service

Service	US-East	EU-West	Total units
Inference API	1,460,000	970,000	2,430,000
Document Processing	420,000	310,000	730,000
Batch Automation	210,000	130,000	340,000

Regional allocation is provided for capacity planning. It does not independently establish whether a network surcharge applies; contractual billing terms govern.

PRICING SCHEDULE - EFFECTIVE JANUARY 1, 2025

Commercial term	Rate
Enterprise Platform Subscription	\$8,500 / month
Included usage	2,000,000 units / month
Excess usage	\$3.20 per 1,000 units
Regional Network Surcharge	\$580 / month
Premium Support	\$400 / month

This schedule applies unless modified by a later executed order form or amendment. Where terms conflict, the later executed document controls for periods on or after its effective date.

Usage tiers and discounts

Monthly usage	Adjustment
0 - 5,000,000 units	Standard contracted rate
Above 5,000,000 units	8% volume discount on units above threshold
Annual prepayment	2% platform-fee discount if elected before term start

Volume discounts are calculated only on usage above the stated threshold. Acme Robotics did not elect annual prepayment for the 2026 contract year.

Notice: pricing schedules are frequently amended by customer-specific agreements. Billing operations must verify all executed amendments whose effective date precedes the billing period.

Commercial amendment summary

The executed clauses and signatures continue on the following scanned page. In the event of conflict with the January 2025 Pricing Schedule, this Amendment #3 governs for billing periods beginning on or after October 1, 2026.

ACME ROBOTICS ENTERPRISE AGREEMENT**AMENDMENT #3 - EXECUTED COPY**

4. BILLING TERMS. Beginning with billing periods starting on or after October 1, 2026, excess usage shall be billed at \$2.00 per 1,000 units. This term supersedes the excess usage price in the Northstar Enterprise Pricing Schedule effective January 1, 2025.

5. SURCHARGES. The Regional Network Surcharge described in the January 2025 Pricing Schedule is eliminated beginning October 1, 2026. No regional network surcharge may be assessed for billing periods beginning on or after that date.

6. CONTINUING TERMS. All other subscription and Premium Support fees remain unchanged.

Payment terms

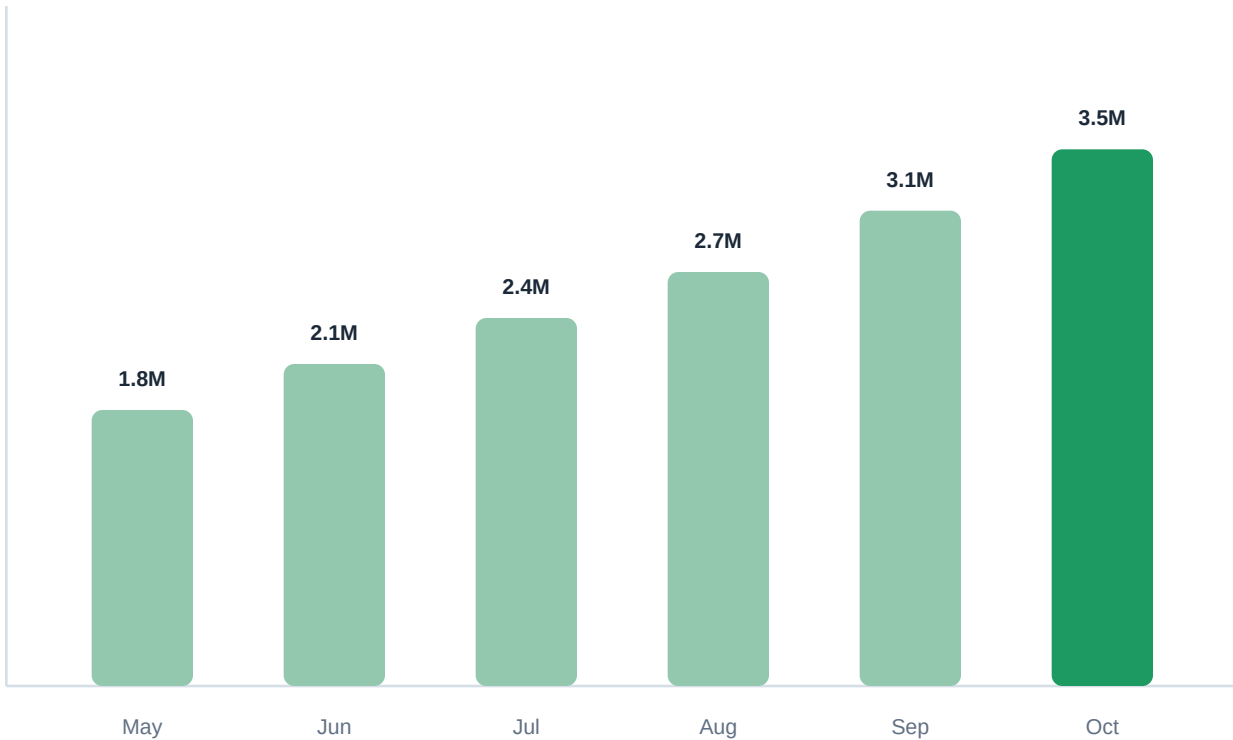

Invoices are due net 30 days from issue. A good-faith billing dispute submitted before the due date pauses collection activity only for the disputed portion. Undisputed balances remain payable.

Service level agreement

Measure	Commitment	October result
API availability	99.95%	99.97%
Priority-1 response	30 minutes	24 minutes
Batch completion	99.5%	99.7%

Trailing six months | Planning reference only

Monthly API usage

Historical growth does not modify contracted rates. October billing must use the agreement terms effective for October 1-31, 2026.

September invoice summary
